Project License editable?
Can be edited by anyone based on license

License approved by OSI or FSF?
*U*nsure. The license terms of agreement has a new BSD/redistribution clause
in license document, but does not state approval source.

Which type of license it is (short, long, permissive, copyleft, ...)?
*The license appears to be completely open, thus long term. Terms of agreement
nor GitHub page dont state*

**Use the GitHub forum page (https://github.com/opentoonz/opentoonz)
for the following questions and details:**

- **How to ask questions about using the project**

- **How to get latest source code**

- How to report bugs and request new features in the project? (also has a
  Google Group)

- **Where to view the code online**

- **Who provides commercial support (also has a Google Group)**

- **Where to get information about contributing to the project or if project is active**
